

All Students

NetPlus College takes the health and safety of our students and staff seriously, as the threat of spread of Covid-19 grows we have and are acting accordingly.

NetPLUS College along with all non-essential businesses have been ordered closed for 14 days.

Effective immediately we are closing our doors for the safety of all and moving all our training to online platforms only as mandated by the Province of Ontario.

While NetPLUS would love to remain open so our students can access all its resources, we fully understand the threat this warrants to our students and staff.

Once the threat is removed and we are permitted to return, we will resume normal business practices.

We thank all of you for your understanding and will keep you posted on this matter as it unfolds.
